CONFERENCE

AESTHETIC MEDICINE

NEXT GENERATION EDUCATION

THE UK'S LEADING ONE-DAY

AESTHETIC MEDICINE EDUCATIONAL EVENT

A multidisciplinary programme created for doctors, dentists, nurses and healthcare professionals working across aesthetic medicine.

21 NOVEMBER 2026

QEII CENTRE | LONDON

WELCOME

Interface Expo returns to London for its fifth consecutive year with a clear purpose: independent, clinician-led education for healthcare professionals practising in aesthetic medicine.

Founded in 2022 by UK facial surgeon Mr James Olding, Interface Expo has grown without losing what defines it: education first, carefully curated partnerships, a multidisciplinary faculty and a programme shaped by the realities of clinical practice.

For 2026, the programme moves beyond technique alone. Regulation and licensing, evolving patient presentations, psychological safety, multidisciplinary case review, anatomy-led treatment planning and some of the most contested areas of modern aesthetic medicine will all come under scrutiny.

Live treatment returns to the stage, alongside MDT discussion, evidence-led debate and practical clinical perspectives designed to challenge how practitioners assess, decide and treat.

This is not a trade show dressed up as education.

It is a focused one-day meeting for doctors, dentists, nurses and healthcare professionals who want to question, refine and evolve their practice.

Saturday 21 November 2026

ABOUT THE QEII CENTRE

The Queen Elizabeth II Centre (QEII) is one of London's most iconic event venues, ideally situated in the heart of Westminster. Located directly opposite Westminster Abbey and a short walk from the Houses of Parliament and Big Ben, the QEII Centre offers state-of-the-art facilities in a prestigious central location.

With excellent transport links and a reputation for hosting high-profile national and international events, it provides the perfect setting for Interface Expo 2026.

Public Transport:

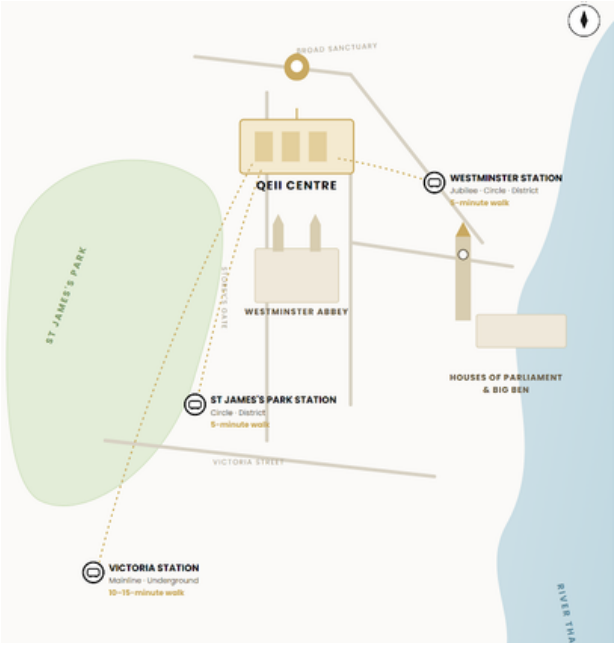

The QEII Centre is easily accessible via multiple London Underground lines.

The nearest stations are:

- Westminster Station (Jubilee, Circle, and District lines)
  5-minute walk
- St James's Park Station (Circle and District lines)
  5-minute walk
- Victoria Station (mainline and Underground)
  10–15-minute walk

Numerous bus routes also serve the Westminster area.

We recommend using public transport where possible due to Central London congestion and limited parking availability.

01

CLINICIAN-LED SPEAKERS

Hear from respected clinicians, educators and subject matter experts shaping current practice.

02

LIVE TREATMENT DEMONSTRATIONS

Observe clinical techniques performed in real time, supported by expert commentary and discussion.

03

EXPERT-LED DEBATES

04

INDUSTRY PARTNER SESSIONS

Selected partner-led sessions within our independent educational agenda, geared wholly towards education

05

NETWORKING OPPORTUNITIES

Connect with peers, faculty, partners and professionals from across the aesthetic medicine landscape

06

CPD EDUCATION

Benefit from high-quality educational content designed to support continued professional development.

07

LEADING EXHIBITORS

Discover products, services and solutions from organisations aligned with clinical excellence and innovation

08

RESEARCH & INNOVATION

Explore research and new perspectives in aesthetic medicine through poster presentations showcasing clinical work, case studies and innovation.

PLATINUM SPONSORS

The organisations behind the room

Fotona
choose perfection

Fotona is a global leader in advanced medical laser technology, with over 60 years of innovation and engineering excellence. Our award-winning Fotona Dynamis Max, voted Best Device 2025 at the Aesthetic Awards, delivers more than 100 clinical indications from a single platform.
From MicroCoring® for scarless skin rejuvenation and SmoothMode® for non-surgical eyelid rejuvenation and skin tightening, to treatments for acne, rosacea, hair restoration, pigmentation, thread veins, scars, snoring, body contouring, gynaecology and more, Fotona continues to set the benchmark in laser medicine. We also offer one of the most powerful pico laser systems available.
With Fotona, you gain more than world-class technology - you gain a trusted partner committed to exceptional clinical outcomes, ongoing support, and helping your practice grow.

Pabau

Pabau is the AI-powered practice management platform built for medical aesthetics. From solo injectors to multi-location groups, Pabau automates admin, personalises patient journeys, and runs marketing, payments, consultations and reporting from one place. And as practices expand into skin, weight loss and longevity, Pabau grows with them. Trusted by 4,000+ practices worldwide.

PLATINUM SPONSORS

The organisations behind the room

SkinCeuticals

As the #1 aesthetic skincare brand recommended by UKI dermatologists in private practice, SkinCeuticals delivers clinically proven results you can trust. At SkinCeuticals, our mission is to improve skin health. We are committed to leading the skincare industry in terms of research and innovation, and we promise to provide advanced skincare backed by science. As one of the first brands to recognise the power of integrated skincare, our products & procedure pairings are developed with doctors to complement the outcome and minimise downtime of medical aesthetic procedures.

TSK

TSK UK is a trusted partner to aesthetic practitioners across the UK and Ireland, providing innovative injection tools designed to support modern aesthetic practice.

As the team behind THE INViSIBLE NEEDLE® and STERiGLIDE® Cannulas, we work closely with clinics, training academies and practitioners to help advance injection techniques through collaboration, education and innovation. Our focus extends beyond products, building long-term partnerships that support confidence, precision and professional development.

By understanding the evolving needs of the aesthetics industry, TSK UK continues to deliver trusted solutions that support practitioners throughout their careers.

GOLD SPONSORS

The organisations behind the room

HAMILTON FRASER

For 30 years, Hamilton Fraser Cosmetic Insurance has been at the forefront of specialist insurance for the medical aesthetics sector. As the first provider to introduce medical malpractice insurance specifically for the industry, we have built a long-standing reputation for understanding the evolving risks, responsibilities and needs of aesthetic practitioners.

Today, we continue to support professionals throughout their careers with specialist insurance, expert guidance and educational resources designed around the realities of working in aesthetics. Our focus extends beyond providing cover; we work closely with practitioners, training providers and industry partners to help promote high standards, patient safety and responsible practice across the sector.

With three decades of specialist experience behind us, Hamilton Fraser remains committed to protecting and supporting the professionals who are helping to shape the future of medical aesthetics.

IBSA

Founded by a group of Swiss biologists in 1945, IBSA - Institute Biochemical SA - has gained unique experience in pharmaceutical research and technology.
We manufacture hundreds of products covering 10 THERAPEUTIC AREAS, available in more than 90 COUNTRIES.

IBSA UK & IRELAND - Derma Aesthetics
The IBSA Derma approach is aimed at countering the physiological decrease of hyaluronic acid in the skin tissue, thus restoring hydration, elasticity and tone.
In fact, in a synergistic way, it combines hydration with mechanical action of lifting the skin.
IBSA Derma distinguishes itself in this vast market because it controls the entire product lifecycle, from the biofermentation production of the raw material to the ready-to-use final product in pre-filled syringes.

GOLD SPONSORS

The organisations behind the room

John Bannon PHARMACY

Established in 1985, John Bannon Ltd is a market leader in the Irish medical industry. They have grown to become a major supplier to the NHS in the UK, as well as being a preferred partner with some of the world's leading pharma companies.
The company's competitive advantage lies in the management of its customer relationships. Through the years strong relationships have been developed built on trust, impeccable customer service, and communication.
John Bannon Pharmacy is a UK based venture by John Bannon Ltd with the help of experienced pharmacist, Iain Ashby with John Bannon, based in Dublin.
By using the experience of both John, Iain, and the team they have assembled we offer a wide range of products at great prices coupled with exceptional customer service.

REVANCE™

We believe that science enhances beauty.
That's why we offer industry-leading differentiated products in aesthetics for individuals across the generations. Combining our science-powered innovations with an expert technique, we provide personalized options to inspire a beautiful confidence.
Our UK portfolio:
SkinPen - THE UNRIVALED TECHNOLOGY MEDICAL PROFESSIONALS AND PATIENTS CAN TRUST
SkinPen Precision Elite is the world's leading skin remodelling (microneedling) medical device that creates temporary small microscopic channels in the skin. This simple procedure activates the body's natural skin-healing power to increase collagen and elastin, so the skin returns to a healthier-looking and youthful appearance.
MicroPen EVO - the next-generation automated microneedling device
MicroPen EVO enables practitioners to deliver safe, consistent, and effective treatments across a range of skin concerns and treatment areas. Ideal for clinics looking to expand their regenerative aesthetics offering, MicroPen EVO combines clinical efficacy with ease of use and patient comfort.

GOLD SPONSORS

The organisations behind the room

DERMAFOCUS
REGENERATIVE AESTHETICS

DermaFocus is dedicated to advancing regenerative aesthetic medicine through a combination of scientifically validated technologies, expert education and ongoing clinical support. Our focus is on helping healthcare professionals adopt evidence-based regenerative treatments with confidence, backed by robust science and practical training.
Our product portfolio has been carefully selected to offer complementary regenerative approaches across a range of clinical indications, including:

Plinest® – winner of Best Injectable Product at the Aesthetics Awards 2025. Featuring highly purified Polynucleotides HPT®, the Plinest® range includes dedicated formulations for the face, eyes and hair.
Newest® – the UK's first injectable combining highly purified polynucleotides with hyaluronic acid, developed to improve skin hydration while supporting regenerative processes.
Purasomes – a regenerative exosome platform incorporating AMPLEX Plus technology, derived from ethically sourced bovine colostrum, with supporting protocols including Purasomes XCell and Exosomal Liquid Laser.
Celora™ Vita – a regenerative injectable formulated with nine amino acids that provide the substrates required for the skin's natural protein synthesis, supporting skin biorestoration and overall skin quality.

Our commitment extends beyond product distribution. Every technology is supported by comprehensive education, with regular training programmes delivered by experienced clinicians who combine scientific principles with practical, real-world application. Our aim is to equip practitioners with the knowledge and confidence to integrate regenerative treatments safely and successfully into clinical practice.
Our dedication to excellence has been recognised across multiple industry awards, with DermaFocus and our product portfolio being shortlisted, highly commended and recognised as winners for innovation, education and clinical support.
Whether you are introducing regenerative medicine into your clinic for the first time or expanding your existing treatment offering, DermaFocus provides the products, education and ongoing support to help you deliver outstanding patient outcomes.

GOLD SPONSORS

The organisations behind the room

aesthetic nurse software

Aesthetic Nurse Software (ANS) is an all-in-one platform designed specifically for medical aesthetic clinics. Founded in 2018 by nurse prescriber Jo Hayward, ANS was created to address the real challenges aesthetic practitioners face when running a clinic – balancing patient care with organisation, compliance, and day-to-day operations.

Built by practitioners, for practitioners, the platform brings everything from booking and patient records to consent, payments, and reporting into one intuitive system. Trusted by thousands of professionals across the UK and beyond, ANS supports clinics in running efficient, successful businesses while allowing practitioners to focus on delivering safe, high-quality patient care.
